

Mechatronic Life Cycle
Service

SERVICE

Get the service your business deserves

Fully committed to the efficiency of your system over its life cycle

Today, mechatronic products are a critical part of your infrastructure and systems. They impact directly the lifecycle, the efficiency and the productivity of the machines. For this specific reason, a Bonfiglioli expert is there to support you wherever you are, providing a proactive approach. Thanks to a flexible, dedicated approach and complete transparency, our team helps you controlling costs (TCO) and operate at peak performance, now and in the future.

ASSESSMENT AND ORIENTATION

Starting from the analysis of your machine to understand the needs, to personalized recommendations in order to increase the performance, we offer a start-to-the-end service

ENGINEERING AND PLANNING

Based on your needs, we customize the Mechatronic products and set up the project at your side

PROCUREMENT AND DELIVERY

We provide dedicated advice and support your procurement process efficiently. Our team is fast and reactive from the order up to the delivery

INSTALLATION AND COMMISSIONING

Reduce your installation times and optimize your costs with the support of our experts starting from the first steps to the end

MAINTENANCE AND REPAIR

Thanks to our repair centers spread around the world, we are able to provide fast repair services, both on-site and remotely

RETROFIT AND MODERNIZATION

We maintain your machine performing thanks to downward compatibility of our products and tailored optimization services

TECHNICAL SERVICE

We guarantee on-site/ remote support and maintenance thanks to a preventive and corrective approach during the total life cycle of the system

SPARE PART SERVICE

We provide spare parts for our complete product portfolio and a safety stock for customized products

CONSULTING SERVICE

Our experts can support you in product engineering selection, sizing and documentation. They assist you during the installation phase and carry an energy efficient audit on demand

TRAINING SERVICE

We create specific post-startup training modules predefined and individually tailored to meet a variety of needs. Allowing you to be reactive and autonomous is important

We have a relentless commitment to excellence, innovation and sustainability. Our team creates, distributes and services world-class power transmission and drive solutions to keep the world in motion.
